But our latest upgrade rendered my connection to the network printer just about nonexistent painfully slow when it worked and sporadic in its choice of what it deemed worthily of ink. So I decided, as a stop gap, Id buy the cheapest littlest printer I could find. I could just put it on a table in my office and stop running up and down the steps to see if my print jobs happened. If they ever get the network set up right, then I could ditch the little printer and go back to the mother ship for quality. I bought a little HP Deskjet F2120 allinone printer, scanner, copier. In fact, I did not know about the allinone virtues til I got this baby home. I just wanted little and cheap. I also did not know about the OCR software thats included or its ability to do two sided printing. I havent tried either yet, but THAT its included is a nice feature. What a surprise! This little baby is F A S T.Im not sure how it will last. But as most of what I print is just to read, mark up and then toss, Im thinking this could be a nice little addition to my office equipment.Just keeps working and working. Only problems are trying to print more than one sheet at a time can be a hassle, and now cant really use scan with Mac osx mavericks. But for what I use it for its fine.
